

REPORT 2: GOSling

Team:

Zhunussova Meruyert 200103534

Bekmagambetova Diana 200103329

Diana:

1. Request Context for Authentication/Authorization

2. Testing for HTTP Handlers

create a new ping handler function which simply returns a 200 OK response. It's the type of handler that used for status-checking or uptime monitoring of server.

3. Testing for Templates

Progress can be tracked on our GitHub repository at <https://github.com/mistledi/GOSling>.
